Hi Shaun,

We hope you're enjoying the Omada program so far! We are happy to announce that a blood glucose meter is now included with your program, at no cost to you. This device automatically uploads your blood glucose readings wirelessly to your Omada account, making it even easier to track your progress. Using this meter also enables your Omada diabetes specialist to provide enhanced support. We hope this new meter improves your experience with the program.

This device will be automatically mailed to your address on file. Please review your address in the Omada app to ensure it's up to date or update your address by following this [Help Center](#) article. **We will start shipping on 12/18/2024.**

If you have any questions, feel free to respond to this email.

Sending you warm wishes,  
The Omada Team
