Dear «First\_Name»,

We are following up regarding the recent communication you received about the transition of your WageWorks health savings account (HSA) to HealthEquity. You have been identified as having additional non-HSA products (e.g., limited purpose FSA, HRA) with WageWorks that are tied to your current WageWorks healthcare card.

As part of the transition of your HSA to HealthEquity, you will receive a new HealthEquity HSA card for use with your HealthEquity HSA. The card should arrive in your mail the week of May 11 as part of your HealthEquity welcome kit. ***Do not destroy your existing WageWorks healthcare card.*** You will continue to use it to manage your non-HSA products. If you need a new WageWorks healthcare card, you may order a replacement card (or additional cards for your dependents) on the WageWorks platform by calling 877.924.3967 (877.WageWorks).

We look forward to serving you.

Thank you,

***HealthEquity Member Services***
