Important pharmacy benefit information

[Month DD, YYYY]

Dear [To the parent(s)/guardian(s) of:] <member first name><member last name>,

The availability and use of drug copay cards from drug manufacturers has become increasingly popular, especially with high-cost specialty medications. These cards provide a special discount on select prescription medications.

The use of these cards, in addition to your pharmacy benefit identification card, can reduce your out-of-pocket costs. However, they also impact your responsibility in meeting deductible and out-of-pocket calculations with your own money.

We are not limiting the use of these drug copay cards in the specialty pharmacy, but starting **<effective date>, drug copay card dollars (amount of your prescription paid for by a drug copay card) will not count toward your deductible and out-of-pocket maximums (member share)**. Only your true out-of-pocket costs will be applied to your deductible and out-of-pocket accumulated benefit totals. Please see sample below:

Sample copay amount:	\$500
Minus sample drug copay help amount:	\$100
Sample amount you pay that goes to deductible/out-of-pocket limit.	\$400

Questions about this change?

Call the number on your member ID card. We appreciate the opportunity to serve you and are committed to helping you make the best use of your pharmacy benefits.

Sincerely,

The OptumRx team
